

Dow Jones Professional Investor Report

Quick access to profiles of U.S. and Canadian companies

How do you answer a customer's question about a company you're not familiar with?

With Dow Jones Professional Investor Report on your desktop, the answer is never "I don't know." This service tracks 7,000 U.S. and Canadian stocks, and builds a data snapshot for each, so you can quickly and easily tap into an instant knowledge base, from mean analyst recommendations to estimated earnings.

Each snapshot includes a brief overview written by Dow Jones Newswires editors, important financial numbers, revenue and earnings, and estimates – along with analysts' mean recommendations from First Call® and fundamental data from Morningstar, Inc. Easily accessed by ticker symbols, updated snapshots are available before the market opens so you always have the most current information.
